

Are you the parent of a child with a disability, chronic illness, special healthcare need, or diagnosis of D/deaf or Hard of Hearing?

Family Voices of Tennessee has a parent to parent mentorship program that matches parents of a child with a new diagnosis to a trained parent mentor who has navigated a similar diagnosis/journey.

If you are **needing** a mentor or are **interested in becoming** a mentor, you can find additional information by visiting our website: familyvoicestn.org or scanning the QR code:
